

The TV news this evening reported that the FCC is debating whether to allow companies to send unsolicited recorded messages to us, even if we are on the "do not call" list. What in the world is the idea behind that? If I don't want a person disturbing me at home, I CERTAINLY don't want a machine doing the same thing! The idea behind getting on the DO NOT CALL list is, I do not want to be called at home by ANYONE soliciting for anything.

Thank you.

Kathleen Riley
